

JOHN SCALES

Aspiring Software Engineer

Whittier, CA 90601

j_scales@aol.com

626-379-8711

I'm John, a 23-year-old aspiring software engineer. I have experience with web dev, game dev, and mobile dev and 9 months of professional experience with PLC and HMI programming along with some Python and other scripting langs with a sprinkle of web dev.

Authorized to work in the US for any employer

WORK EXPERIENCE

Industrial Control Systems Designer

Industrial Logic Systems, LLC. - Anaheim, CA

January 2020 to Present

- I mainly program HMIs using ladder logic.
- A typical program requires going over the customer requirements, creating logical architecture (in some cases), programming the PLC, and HMI (if HMI required).
- It's mainly a waterfall process, but I am familiar with agile & scrum.
- Programming HMIs requires some artistic taste and UI design skills. As well as some logic and communication driver knowledge.
- I have worked on projects for Control Dynamics Corp (Acid Leach Process), Army Corps of Engineers (Dredge Quality Management), North Island Naval Air Station (F35 Testing), Rammstein Air (Spray Booth), Siegfried Pharma (Water Purification & pH System), and others.
- I have also taken the initiative on some projects and made Python scripts in an effort to lessen the cost for my employer to deploy systems for DQM. Scripts run on a Raspberry Pi instead of full PCs since the tasks are light.

Server

Oakmont Senior Living - Brea, CA

December 2016 to April 2017

- Memorized the names of over 80 residents.
- Clean dining room and kitchen.
- Setup dining room and prepared food.
- Waited tables & handled transactions

EDUCATION

Bachelor's in Computer Science

California State University-Fullerton - Whittier, CA

September 2018 to Present

Associate in General Studies Emphasis in Science and Mathematics

Rio Hondo College - Whittier, CA

September 2015 to June 2018

SKILLS

- **Wordpress**
- **C++**
- **Cellular Automata**
- **Shell Script**
- **R**
- **Git**
- **Visual Studio**
- **Atom**
- **Unity**
- **Drop Box**
- **Windows 10**
- **Mac OS**
- **Tar**
- **Adobe Photoshop**
- **Vagrant**
- **JavaScript**
- **Java**
- **Python**
- **PHP**
- **x86**
- **HTML**
- **Docker**
- **Eclipse**
- **GNU GCC**
- **Clang**
- **Microsoft Office**
- **Linux**
- **Mac**
- **iOS**
- **Android Studio**
- **Android**
- **Adobe**
- **Adobe After Effects**
- **Adobe Premiere Pro**
- **Vegas Pro**
- **GIMP**
- **Davinci Resolve**
- **GraphicsMagick**
- **OBS**
- **Audacity**

- Server
- Customer Service
- fast learner
- Organizational Skills
- Powerpoint
- Sales
- Microsoft Word
- Microsoft Powerpoint
- Microsoft Excel
- Excel
- MySQL
- Word
- MS Office
- SDLC
- C/C++
- CSS
- User Interface (UI)
- Waterfall
- Agile
- Bootstrap
- APIs
- GitHub
- Node.js
- Test Cases
- SQL
- Scrum
- MongoDB
- Scripting
- Software Development
- JSON

ASSESSMENTS

Numerical Reasoning Skills — Proficient

August 2019

Quickly and accurately performing basic mathematical operations, recognizing numerical sequences, and interpreting graphs.

Full results: [Proficient](#)

Food Safety — Proficient

February 2019

Knowledge of proper food handling, storage, and equipment use for preventing the spread of foodborne illness.

Full results: [Proficient](#)

Verbal Communication — Expert

February 2019

Measures a candidate's ability to effectively convey information when speaking.

Full results: [Expert](#)

Analyzing Data — Expert

October 2020

Interpreting and producing graphs, identifying trends, and drawing justifiable conclusions from data.

Full results: [Expert](#)

Spreadsheets with Microsoft Excel — Expert

October 2020

Knowledge of various Microsoft Excel features, functions, and formulas.

Full results: [Expert](#)

Programming Fundamentals — Proficient

October 2020

Designed by engineering managers and real-world employers, this test gives you hard data points to evaluate technical competency.

Full results: [Proficient](#)

Indeed Assessments provides skills tests that are not indicative of a license or certification, or continued development in any professional field.

ADDITIONAL INFORMATION

Projects:

Bad Decision Maker iOS App:

An app I made for my mobile development class, from scratch using Xcode and SwiftUI.

<https://apps.apple.com/us/app/baddecisionmaker/id1505251734>

ZirShares Fund Allocator:

A web app I made for my own use. It can market balance a selection of stocks just like real ETFs like SPY and VOO. It can also balance your stocks with your desired weights.

It maximizes shares according to your budget.

Made with JavaScript, HTML, Bootstrap, CSS.

<https://johnnscales.site/etf.html>

Game Buddy:

A website made by me and 5 others in my Software Engineering class over the course of a semester.

The entire UI was made by me and my teammate Oscar.

I did the entire homepage on my own, code, and design. The games list was a collaboration between me and Oscar, him doing the javascript for the dynamic loading and me doing some of the design for the cards and some sorting functionality.

The games pages were an equal effort by me and Oscar. I did a lot of the javascript and he added some QOL features and did a good portion of the javascript.

The dev pages were done by me.

The rest was the rating and login system, hosting, and database that was done by the rest of the team.

Made with HTML, JavaScript, SASS, PHP, XXAMP, AWS, Bootstrap, Node.js.

<https://johnnscales.site/gamebuddy.html>

Acid Leach System for Control Dynamics Corp.:

This was a PLC and HMI program that controls the Acid Leach Tank system for Synthetic Textiles, Inc. <https://www.synthetictextilesinc.com/>

The program controls 2 tanks, 2 pumps, and 6 valves and goes through Acid Leach cycles to automatically create the textiles for the company. I also programmed an HMI for the project to configure and control the system graphically and see the process. This program is fully implemented and in use at the site.

Made with Ladder Logic, Productivity Suite, CMore.
